DETAILED ACTION

Allowable Subject Matter

All claims are allowed. Claims 1, 5-18, and 22-32 are allowed. The following is an examiner's statement of reasons for allowance: As noted in the file history (such as at the previous filings from applicant [e.g., October, May, 2005]), the prior art did not teach or suggest the particular features of the claims such as "the second registry information stored in respective registries associated with respective applications" in the context of the other limitations of the claims. Upon re-reading of the claims in light of the entirety of the arguments in the file history, the Office has discovered that the creation of an application specific database in addition to the existing database registry as recited in "the second registry information stored in respective registries associated with respective applications" and as in the context of the other limitations of the claims is not taught or suggested by the prior art.
